

APPENDIX A:
EXISTING + COMMITTED PROJECT LIST

WSP | Parsons Brinckerhoff

February 2016

Cherokee County Comprehensive Transportation Plan

Table A.1 on the following page contains all of the transportation improvements that were included within the “Existing + Committed” (E+C) transportation network. The E+C network consists of all projects included in ARC’s FY2014-2019 Transportation Improvement Program (TIP) and fiscally-constrained Regional Transportation Plan (PLAN 2040), as well as all programmed local projects that will be funded under the County’s current SPLOST cycle.

The E+C network was used to forecast future travel demand in 2040 in the absence of additional local investment in transportation. It should be noted that for some projects, due to the nature of the improvement and its potential benefits, the project could not be modeled. Thus, these projects do not appear in the E+C project list table.
